In re application of:

Craig L. Linden

Application No.: 09/856,228

Examiner: Miller, Bena B

Art Unit: 3725

Filed: May 16, 2001

For: METHOD AND APPARATUS FOR POWERED INTERACTIVE PHYSICAL  
DISPLAYS

Assistant Commissioner for Patents

P. O. Box 1450

Alexandria VA, 22313-1450

Sir:

**Applicant's Interview Summary Regarding November 4, 2010 Phone Conversation**

Applicant wishes to thank Examiner Miller for returning his voice mail messages about his concerns regarding the October 14, 2010 Office Action. Applicant's prior messages stated his position that his original and subsequently amended claims included communication transceivers. Applicant stated the dates of the telecommunications class 455 searches. Applicant stated that the PAIR record shows on September 10, 2008, the Matthew Anderson refused the transfer of the case to 455. Applicant's message mentioned his August 4, 2008 and earlier Information Disclosure Statements with references that included wireless mobile terminals, etc. During the subject phone conversation, Applicant understood he could amend the claims to avoid termination of the case. The Examiner mentioned the current assigned child toy class 446. Applicant stated that one of the original assigned/searched classes, for instance class 463/39 (PCT search report of Nov. 3, 2000, mailed Dec. 27, 2000) seemed to be more about the invention than class 446 (446/175). The Examiner explained about the class assignment versus searching other classes for possible prior art references with similar elements. At the end of the interview, Applicant stated he planned to submit amended claims.

  
Craig L. Linden, pro se
